

14 December 1967

NOTE FOR: Mr. Duckett

You mentioned last night that you would like to see Chalmers again for further discussions. He said that he believed he would be able to make practically any day in January which you might like to select. Would you like to pick a date? Do you want me to arrange for him to come in, or would you like Ann to handle that? I have put alternate words in a draft note to Chalmers depending upon your desire to lash up another personal meeting.

You will recall that Sherwin recommended Jack Morton very highly as a speaker several times, and prior to leaving last night he again strongly recommended him as having an extraordinary grasp of R&D management problems. Would you like me to get ahold of him with a view towards arranging something in February or March?

25X1A

Ray,
The Draft is fine and I'm
sorry I didn't respond sooner.
Let's not do anything specific
about another get together but
keep it in mind for the periods
mentioned. Love
Paul
